

Miami Harbor – 103 Evaluation

MIAMI HARBOR 103 EVALUATION - 2002

PREPARED BY: ANAMAR ENVIRONMENTAL CHEMISTRY, INC.
PREPARED FOR: U.S. ARMY CORPS OF ENGINEERS, JACKSONVILLE DISTRICT, JACKSONVILLE, FLORIDA.
DATE: MARCH, 2003

TABLE 4
Depth Profile in Situ Data from Miami Harbor from July 22 to August 3, 2002

Station ID	Sampling Depth (feet)	Temp (°C)	pH (units)	Dissolved O ₂ (ppm)	Salinity (ppt)	Conductivity (mmhos/cm)	Turbidity (NTU)
E-08002-1A	1	29.99	8.08	5.35	29.62	43.50	5.4
	15.5	29.86	8.21	5.15	33.02	50.26	5.0
	28	29.94	8.20	5.12	33.08	51.21	4.7
E-08002-1B	1	30.16	8.18	5.35	32.10	48.98	4.2
	17	29.65	8.24	5.37	35.62	50.78	4.2
	31	29.66	8.25	5.36	35.62	50.78	4.2
E-08002-2A	1	29.90	8.19	5.26	35.55	51.16	4.0
	15	29.76	8.24	5.17	35.35	50.42	5.2
	27	29.75	8.25	5.24	35.26	50.72	5.0
E-08002-2B	1	29.99	8.17	5.45	31.95	48.18	4.5
	17	29.74	8.24	5.20	35.26	50.31	4.3
	31	29.67	8.25	5.06	35.74	50.96	4.6
E-08002-3A	1	30.67	8.19	6.21	28.05	40.76	13.3
	15	30.90	8.20	6.27	26.71	41.59	13.0
	27	30.71	8.21	6.08	27.69	42.06	14.5
E-08002-3B	1	30.75	8.18	6.37	25.88	40.49	14.5
	15.5	30.70	8.19	6.01	27.60	42.79	15.5
	28	30.65	8.19	5.94	28.15	43.55	14.8
E-08002-4A	1	30.68	8.10	5.60	26.01	41.80	8.0
	15	30.36	8.25	6.27	29.29	44.92	7.0
	27	30.85	8.22	5.15	30.28	51.25	7.7

Contents

Section	Page
Executive Summary.....	1
1 Introduction.....	4
2 Methods and Materials.....	5
2.1 Sample Collection Techniques	5
2.2 <i>In Situ</i> Field Measurements	6
2.3 Sediment Analyses	6
2.4 Elutriate Analysis.....	7
2.5 Tissue Analysis	7
2.6 Bioassays	7
2.6.1 General Procedures.....	7
2.6.2 Elutriate Bioassay Procedures	8
2.6.3 Sediment Bioassay Procedures.....	9
2.7 Bioaccumulation Procedures.....	10
3 Results and Discussion	12
3.1 Field Data	12
3.2 Physical Testing Data	12
3.3 Chemistry Data	12
3.3.1 Sediment Chemistry Data	12
3.3.2 Elutriate Chemistry Data	13
3.3.3 Tissue Chemistry Data	14
3.4 Bioassay Data	14
3.4.1 Elutriate Bioassay Data	14
3.4.2 Sediment Bioassay Data	16
3.5 Bioaccumulation Data.....	17
3.6 Data Evaluation	18
3.6.1 TBP Calculations.....	18
3.6.2 ADDAMS Model	18
3.7 Statistical Analysis of Bioaccumulation Data.....	19
4 References.....	22
Figures	
1	Reference and Sample Station Locations at Miami Harbor, Florida, Sampled July 22 through August 2, 2002
2	Sample Collection, Transportation, and Preparation at Miami Harbor
3	Miami Harbor Sample Pictures
Charts	
1	Particle Size Distribution and Settling Rate Charts

Contents, Continued

Tables

- 1 Sediment Analytes and Analytical Methods
- 2 Elutriate Analytes and Analytical Methods
- 3 Results of *In Situ* Hydrographic Measurements at Miami Harbor from July 22 to August 2, 2002
- 4 Depth Profile *In Situ* Data from Miami Harbor from July 22 to August 2, 2002
- 5 Results of Physical Analysis (Specific Gravity, Atterberg Limits, and Percent Solids) from Sediments Collected at Miami Harbor, July 22 to August 2, 2002
- 6 Results of Physical Analysis (Grain Size) from Sediments Collected at Miami Harbor, July 22 to August 2, 2002
- 7 Results of Physical Analysis (Settling Rates) from Sediments Collected at Miami Harbor, July 22 to August 2, 2002
- 8 Results of TOC, Cyanide, Ammonia, and Oil and Grease Analyses for Sediments Collected at Miami Harbor, July 22 to August 2, 2002
- 9 Results of Metals Analyses for Composited Sediments Collected at Miami Harbor, July 22 to August 2, 2002
- 10 Results of Organochlorine Pesticides for Sediments Collected at Miami Harbor, July 22 to August 2, 2002
- 11 Results of Polychlorinated Biphenyls (PCBs/Aroclors) Analyses for Sediments Collected at Miami Harbor, July 22 to August 2, 2002
- 12 Results of PCB Congeners Analyses for Sediments Collected at Miami Harbor, July 22 to August 2, 2002
- 13 Results of Organic Tin Analyses for Sediments Collected at Miami Harbor, July 22 to August 2, 2002
- 14 Results of TOC, Cyanide, Ammonia, and Oil and Grease Analyses for Reference Water and Elutriates Prepared from Sediments Collected at Miami Harbor, July 22 to August 2, 2002
- 15 Results of Metals Analyses for Reference Water and Elutriates Prepared from Sediments Collected at Miami Harbor, July 22 to August 2, 2002
- 16 Results of Organochlorine Pesticides Analyses for Reference Water and Elutriates Prepared from Sediments Collected at Miami Harbor, July 22 to August 2, 2002
- 17 Results of Aroclor Analyses for Reference Water and Elutriates Prepared from Sediments Collected at Miami Harbor, July 22 to August 2, 2002
- 18 Results of PCB Congeners Analyses for Reference Water and Elutriates Prepared from Sediments Collected at Miami Harbor, July 22 to August 2, 2002
- 19 Results of Organic Tin Analyses for Reference Water and Elutriates Prepared from Sediments Collected at Miami Harbor, July 22 to August 2, 2002
- 20 96-Hour *Mysidopsis bahia* Survival in Three Elutriate Concentrations Prepared from Sediments Collected at Miami Harbor, July 22 to August 2, 2002
- 21 Summary of ANOVA and Dunnett's Test of Control Water (0 percent Elutriate) or Control Sediment (100 percent Elutriate) and Test Sediment (100 percent Elutriate) *Mysidopsis bahia* Survival for Miami Harbor, July 22 to August 2, 2002

Contents, Continued

Tables, Continued

- 22 96-Hour *Menidia beryllina* Survival in Three Elutriate Concentrations Prepared from Sediments Collection From Miami Harbor, July 22 to August 2, 2002
- 23 Summary of Steel's Many-One Rank Test of Control Water (0 percent Elutriate) or Control Sediment (100 percent Elutriate) and Test Sediment (100 percent Elutriate) *Mysidopsis bahia* Survival for Miami Harbor, July 22 to August 2, 2002
- 24 Sea Urchin, *L. variegates*, Fertilization Test Counts and Percentages in Three Elutriate Concentrations Prepared from Sediments Collected from Miami Harbor, July 22 to August 2, 2002
- 25 Summary of ANOVA and Dunnett's Test of Seawater Control (0 percent Elutriate) or Control Sediment (100 percent Elutriate) and Test Sediment (100 percent Elutriate) *L. variegatus* Fertilization for Miami Harbor, July 22 to August 2, 2002
- 26 LC₅₀ (*Mysidopsis bahia*, *Menidia beryllina*) and EC₅₀ (*Lytechinus variegates*) Values^a for Elutriate Bioassays Conducted on Miami Harbor Sediments, July 22 to August 2, 2002
- 27 10-Day Sediment *Mysidopsis bahia* Survival, Miami Harbor Sediments, July 22 to August 2, 2002
- 28 Summary of ANOVA and Dunnett's Test of Control Sediment and Steel's Many-One Rank Test of Reference Sediment for Test Sediment Bioassays of *Mysidopsis bahia*, Miami Harbor, July 22 to August 2, 2002
- 29 10-Day Sediment *Leptocheirus plumulosus* Survival, Miami Harbor Sediments, July 22 to August 2, 2002
- 30 Summary of Statistical Analyses of Control Sediment or Reference Sediment for Test Sediment Survival for Miami Harbor Sediment Bioassays of *Leptocheirus plumulosus*, July 22 to August 2, 2002
- 31 Survivorship of *Macoma nasuta* and *Nereis virens* During 28-Day Bioaccumulation Bioassays with Sediments from ANAMAR, July 22 to August 2, 2002
- 32 Results of Metals Analyses for Tissues (*Nereis virens*) Wet Weight from 28-Day Bioaccumulation Testing. Miami Harbor, Miami, Florida, July 22 – August 2, 2002
- 32A Results of Metals Analyses for Tissues (*Nereis virens*) Dry Weight from 28-Day Bioaccumulation Testing. Miami Harbor, Miami, Florida, July 22 – August 2, 2002
- 33 Results of Metals Analyses for Tissues (*Macoma nasuta*) Wet Weight from 28-Day Bioaccumulation Testing. Miami Harbor, July 22 – August 2, 2002
- 33A Results of Metals Analyses for Tissues (*Macoma nasuta*) Dry Weight from 28-Day Bioaccumulation Testing. Miami Harbor, July 22 – August 2, 2002
- 34 Results of Pesticide Analysis for Tissues (*Nereis virens*) Wet Weight from 28-Day Bioaccumulation Testing. Miami Harbor, July 22 – August 2, 2002
- 34A Results of Pesticide Analysis for Tissues (*Nereis virens*) Dry Weight from 28-Day Bioaccumulation Testing. Miami Harbor, July 22 – August 2, 2002
- 35 Results of Pesticide Analysis for Tissues (*Macoma nasuta*) Wet Weight from 28-Day Bioaccumulation Testing. Miami Harbor, July 22 – August 2, 2002
- 35A Results of Pesticide Analysis for Tissues (*Macoma nasuta*) Dry Weight from 28-Day Bioaccumulation Testing. Miami Harbor, July 22 – August 2, 2002
- 36 Results of Organic Tin Analyses for Tissues (*Nereis virens*) Wet Weight from 28-Day Bioaccumulation Testing for Sediments Collected at Miami Harbor, July 22 – August 2, 2002

Contents, Continued

- 36A Results of Organic Tin Analyses for Tissues (*Nereis virens*) Dry Weight from 28-Day Bioaccumulation Testing for Sediments Collected at Miami Harbor, July 22 – August 2, 2002
- 37 Results of Organic Tin Analyses for Tissues (*Macoma nasuta*) Wet Weight from 28-Day Bioaccumulation Testing on Sediments Collected at Miami Harbor, July 22 – August 2, 2002
- 37A Results of Organic Tin Analyses for Tissues (*Macoma nasuta*) Dry Weight from 28-Day Bioaccumulation Testing on Sediments Collected at Miami Harbor, July 22 – August 2, 2002
- 38 Results of PCB Analyses for Tissues (*Nereis virens*) Wet Weight from 28-Day Bioaccumulation Testing. Collected at Miami Harbor, Miami, Florida, July 22 – August 2, 2002
- 38A Results of PCB Analyses for Tissues (*Nereis virens*) Dry Weight from 28-Day Bioaccumulation Testing. Collected at Miami Harbor, Miami, Florida, July 22 – August 2, 2002
- 39 Results of PCB Analyses for Tissues (*Macoma nasuta*) Wet Weight from 28-Day Bioaccumulation Testing. Collected at Miami Harbor, Miami, Florida, July 22 – August 2, 2002
- 39A Results of PCB Analyses for Tissues (*Macoma nasuta*) Dry Weight from 28-Day Bioaccumulation Testing. Collected at Miami Harbor, Miami, Florida, July 22 – August 2, 2002
- 40 Statistically Different Analytes for *Nereis virens* for Various Sites in the Project Area. Miami Harbor, July 22 – August 2, 2002
- 41 Statistically Different Analytes for *Macoma nasuta* for Various Sites in the Project Area. Miami Harbor, July 22 – August 2, 2002
- 42 Percent Value for All Compounds for *Nereis virens* Compared to Reference Results for Samples Collected from Miami Harbor, Miami, Florida, July 22 – August 2, 2002
- 43 Percent Value for All Compounds for *Macoma nasuta* Compared to Reference Results for Samples Collected from Miami Harbor, Miami, Florida, July 22 – August 2, 2002

Contents, Continued

Appendices

- A In Situ Field Measurements and Calibration Logs
- B Physical Testing Data
- C Chemistry Data
- C-1 Sediment Chemistry Data
- C-2 Elutriate Chemistry Data
- C-3 Tissue Chemistry Data
- D Bioassay and Bioaccumulation Data
- D-1 Bioassay Supporting Data Tables for Miami Harbor Sediments, August 2002
- D-2 Sample Handling Logs for Miami Harbor Sediments, August 2002
- D-3 Survivorship and Water Quality Monitoring Results for *Mysidopsis bahia* Elutriate Bioassays for Miami Harbor, August 2002
- D-4 Survivorship and Water Quality Monitoring Results for *Menidia beryllina* Elutriate Bioassays for Miami Harbor, August 2002
- D-5 Survivorship and Water Quality Monitoring Results for *Lytechinus variegates* Elutriate Bioassays for Miami Harbor, August 2002
- D-6 Elutriate Reference Toxicant Raw Data for Miami Harbor, August 2002
- D-7 Survivorship and Water Quality Monitoring Results for *Mysidopsis bahia* Sediment Bioassays for Miami Harbor, August 2002
- D-8 Survivorship and Water Quality Monitoring Results for *Leptocheirus plumulosus* Sediment Bioassays for Miami Harbor, August 2002
- D-9 Sediment Reference Toxicant Data Sheets for Miami Harbor, August 2002
- D-10 Survivorship and Water Quality Monitoring Results for *Macoma nasuta* Bioaccumulation Tests for Miami Harbor, August 2002
- D-11 Survivorship and Water Quality Monitoring Results for *Nereis virens* Bioaccumulation Tests for Miami Harbor, August 2002
- E Statistics for Tissue Analysis
